# ABOUT THE EVENT SERIES

The Building Bridges event series—hosted by Civic Results | Metro Mayors Caucus in partnership with Rocky Mountain Partnership Cradle to Career™ is expanding to include additional key stakeholders such as healthcare leaders, business and industry partners, and the construction and homebuilding community.

**These events are designed to spark meaningful dialogue and provide opportunities for cross-sector learning and collaboration between local government officials and key stakeholders.**

By fostering shared understanding and stronger relationships, we aim to bridge gaps in communication, align priorities, and support policy decisions that reflect the needs and strengths of communities across Colorado.
